LOCAL ITEMS

"In giving loans I do not want security but character," said J. Pierpont Morgan, the great American financier, which leads the Albertan to remark, "The same expression would apply to Canadian immigration. Security that the immigrant will be a good citizen is hardly enough; the best guarantee is character that will make him a good citizen."

Arrangements have been made by the department of agriculture, to transport students from the Youngstown and Gleichen districts, free of charge to the schools of agriculture at Olds, Claresholm or Raymond. The four schools to be in operation this year are at Olds, Claresholm, Raymond and Vermilion. The classes will commence October 31. Dormitory accommodation will be provided for girls at Olds, Claresholm and Raymond schools.

Premier Lloyd George, speaking in his native village, Llanystunwy, Wales, a few days ago, termed the continuous drift from the villages to the towns as one of the social dangers of Great Britain. The Premier said that the more he thought about this the more anxious he became. After all a country was based on the land. Of all the countries engaged in the great war, Great Britain had the smallest proportion of people whose lives were associated with the soil. For that reason Great Britain had the largest percentage of rejections for physical unfitness. "You can not," said the Premier in conclusion, "get people to live in villages unless you make life worth living there."

The Alberta government exhibit for fairs in the western states, was shipped from Edmonton this week for Billings, Montana, where the Midland Empire Fair is held. The exhibit will also be shown at the Colorado State Fair at Pueblo, Colorado. The intention during this trip is to concentrate on the irrigation lands of the Lethbridge Northern Irrigation District, although the exhibit will be representative of all Alberta. The exhibit is accompanied by C. G. Groff, publicity commissioner; A. W. Foley and Frank Peterson, of the department of agriculture. Representatives of the irrigation council will also be with the exhibit. Mr. Charlesworth, chairman of the irrigation council, accompanying the exhibit to the Colorado fair. The exhibit is one of the best ever sent out by the province. It was prepared under the supervision of the publicity department by Frank Peterson, who has been engaged in this work for the provincial government for some years, and is considered one of the best experts in Canada in exhibit work.

TOWN COUNCIL

The regular meeting of the council was held on September 7th. Present, Mayor Butchart, and Councillors Elves, Mays, Dewie, Walker, Stack.

The minutes of the last regular meeting were read and approved, the monthly pay sheet passed, and a number of accounts ordered to be paid. The building owned by the town, and until recently occupied as a barracks by the A.P.P. officer, has been vacated, and the clerk was authorized to communicate with the Attorney General with a view to having these premises used solely for police court purposes.

The town is now the possessor of the public library, recently secured from the community club. Mr. J. A. Lindsay, who has been librarian for some time, was officially appointed as such, and Messrs. R. L. Elves, W. A. Howes, and F. J. Stewart were appointed as library committee.

Mr. Gow Kee appeared against the amount of his business tax, and a reduction of \$20 was made.

The observance of the milk bylaw received consideration, and Mr. Watt was authorized to go to Calgary and purchase a Babcock milk tester and secure instruction in the operation of the instrument.

A by-law, to amend the by-law fixing the tax on dogs, by raising the amount of the tax, was introduced and received two readings, but the final consideration of same was deferred until next meeting.

LOCAL ITEMS

Extension of the time for redeeming lands sold in the 1921 tax sale has been extended by the provincial department of municipal affairs, by order-in-council, to October 31, 1923. This extension of time for redemption applies to all parcels of land other than those situated in cities, and other than unsubdivided land within the meaning of the tax sale relief act, which were sold for taxes in 1921.

While Mr. Jack Miller, of the High River Trading Co., was crossing the street to the Blair Drug Co. on Tuesday evening last, an automobile driven by Dr. Hewin, the veterinary, struck him, knocking him down, cutting his head and otherwise quite badly disabling him. The result is nothing serious however outside of a bad jarring and a few bruises and he is expected to be at his duties again in a day or so. No blame is attached to anyone, as the doctor was going slow and was about to stop his machine when the accident occurred, otherwise a very different result might have occurred.

LOCAL ITEMS

Mr. Geddes, of Illinois, is in the Vulcan district attending to his land and farming interests.

Mr. D. Fletcher, who comes from a town in Ontario which bears his name, is on a business trip to this section.

Misses Margaret and Mabel McVey, of Ottawa, are visiting at the manse, the guests of Mr. and Mrs. Brunton.

Mrs. M. E. Reed, and her daughter, Veronica, who have been residents at Castor for a year, are back in Vulcan for a visit with friends before leaving for Vancouver.

The production of gold during August in the mines of Northern Ontario reached the highest record in history with a yield of \$1,840,000 for thirty-one days.

The nicest courtesy you can show your guests is to have their visits mentioned on this page. The nicest courtesy you can show your friends is to let them learn of your visit through this page whenever you go away. Even we will consider it a courtesy whenever you give us an item of any kind. Telephone it to Number 13.

Bandmaster Ober informs us that the Citizens Band will be getting busy in a week or two. Our band is a real community band, many or most of the boys being from the country, and music for a time has given place to splendid tones of the binder and the separator. But in a short time they will be preparing the programs which the people will anticipate with pleasure.

Now that we are through with baseball and the like, it would be a good time to start to figure on a hockey team and consider what there is going to be doing this winter. To make a success of any sport there must be a general and generous support, and much can be done to secure this by giving everybody an early and easy chance to get interested. What do you say? When shall there be a meeting to discuss the matter?

"Rainmaker" Hatfield has been announced by the papers the world over as a hero in Naples, having been accredited with breaking a drought and making it pour rain over the Italian countryside. It is not so long ago that this same Hatfield was bargaining to come to Vulcan, and this same paper at the time printed much in reference to the rainmaker, who afterwards operated at Medicine Hat. Evidently he has had more success in Naples than he did at the Hat.

During the whole of next week, Miss Kitching, expert demonstrator for the Magic Baking Powder, will be at the F. L. Simington store. She would like to see every lady in the district who can come into town. Miss Kitching will not only demonstrate Magic Baking Powder, but will assist any lady in her problems of home cooking, which she is well qualified to do, having had extensive training and experience in domestic science.

The representatives of no less than three outside printing firms have been soliciting business in Vulcan this week. It would appear that the town by-laws offer no protection to the home printer. The Advocate being required to depend upon the excellence of its product and the loyalty of our business people, and this we are pleased and prepared to do, and highly appreciate the orders recently received from Vulcan Supply Co., McIntyre & Co., Buck & Howson, Mayor Butchart and others, and in times past from almost all the others doing business in this "home-town" town.

Wouldn't a flour mill in operation in Vulcan look good to you? Besides being an industry that in many ways would be an advantage to the town and district, it would eliminate much of the difference which now exists between the price paid for wheat and the price charged for flour. At present an exceptional opportunity offers for the securing of machinery and equipment for a twenty-five barrel mill. Some of our business people and farmers have the proposition under consideration, and they would be pleased to be joined by others who might be interested.

This is a belated record of an interesting social event, the marriage of Mr. Harry Wenger and Miss Beatrice Leverington. It is not our fault in being late to report this happy event, which took place on July 3, in Calgary, for we were not taken into the confidence of our young friends at the time. The bride, following the ceremony left for B.C. to fill a nursing engagement previously made, for she is one of the aring of sisters who follow faithfully a noble profession. However, the home-coming of Mr. and Mrs. Wenger from Calgary last week gave friends an opportunity to congratulate and wish them well, and they were accorded a community reception that is peculiar to the place and usually tendered to those who are highly esteemed. The principals in this event are well known, and their many friends rejoice in the fact that they will continue to make their home in their home town. The Advocate joins heartily in all the felicitations.

LOCAL ITEMS

Everyone is going to the Big Harvest Dance at Vulcan on Friday, September 22.

Born, in Calgary, on Monday, September 11, 1922, to Mr. and Mrs. Tommy Logan, a son.

Mrs. D. C. Jones and children, who have been away on a visit for some time, returned to Vulcan last week.

Attractive decorations, excellent lunch and first class music should make the local dance on September 22 the dance of the season.

Divine service at the Union Church next Sunday at 11 a.m. and 7.30 p.m. Sunday school at 12 o'clock. Rev. Mr. Brunton will take for his subject at the evening service "Gathering and Scattering." Everybody welcome.

Attention! There will be a short prayer service, with an address by the Rev. Cecil Swanson, B.A., of Lethbridge, for all who care to come, in the Odd Fellows' Hall, on Tuesday, September 19, at 8 p.m. All are invited.

Miss Cassie Davis left here this week to resume her work in connection with Chautauqua, and we are pleased to learn that this institution has given recognition to ability and service by giving Miss Davis a promotion.

Mr. and Mrs. Dyce Allan and Mr. and Mrs. John Dewie motored over to High River on Sunday. They attended the Baptist church and heard Rev. Mr. Gordon preach his farewell sermon previous to returning to his mission work in far off India.

Some fifteen or more of our young lads have enrolled as members of the cadets, and notices have been posted for the first drill this week. The boys here have been well supported in their various organizations, and the cadets will no doubt receive every encouragement.

Last week we reported Mr. D. L. McLeellan as going back east to become a store manager. We were all wrong about this. It is a postmaster that he is to be, and he will undertake his official duties in a place where he is well known. The appointment is a recognition of ability and a fair reward for his services as a soldier.

This town is indeed fortunate in having excellent hotel accommodation and the citizens generally should appreciate such institutions by saying a good word to the stranger about the place. Bear in mind that the town is saved considerably by reason of the free services maintained by the hotel which provides free rest rooms, with comfortable chairs, wash rooms, lavatories, etc.

Into September and ready for business. Most people who are going to have holidays have had them and are getting down to brass tacks again in the routine of the shop, the office or the factory. There are a few who have yet to have their time off. Generally speaking the loafing space—which has come to be an annual affair—has been a good investment and the vacationists have a come back that spells pep, pop and punch. There is nothing like slipping out of the rut for a little while. You owe it to yourself, the community and the neighborhood to drop the regular hum drum for a time.

The September number of the "Farm News Letter," issued by The Canadian Bank of Commerce, contains a lengthy report of the interesting activities of the community club at Drinkwater, Saskatchewan. They work along the lines of our own Vulcan community club, and though they may not have anything on us in a general way, they have accomplished some things that almost make us jealous. No, they have not put in a swimming pool, but they have erected a dandy covered skating rink. Like here, they do there, and that there is co-operation between country and town is indicated by the fact that the rink represents 75% country money, the balance being subscriptions from townspeople and proceeds of various affairs.

Mr. Robert Drummond came to Vulcan recently to accept a position with Buck & Howson, the widely known Vulcan merchandising establishment. He comes from Taber, and the fact that he brings with him the best wishes of many friends is evidenced by the farewell that was tendered to him by the church choir, the curlers and the community, and he was made the recipient of a silver ash tray and cigar holder. The event was reported at length in the Lethbridge Herald, and we quote a portion of the report: "Mr. Drummond is well liked and highly respected in Taber, and probably as well in the district where he will reside, having come here from Barons, and now going to Vulcan. Bob's quiet, unobtrusive ways have accompanied a thorough knowledge of his line of business and injected a sanity into town affairs which has helped a lot. What between curling and various other activities outside of business hours, Mr. Drummond has generally been in the thick of it, and his departure leaves a certain lack which is certain to be felt."

LOCAL ITEMS

Teddy Mutz made the trip up to Edmonton with his brother Emil, and at the week-end took a run over to Fernie.

There will this week be some slight changes in the time schedule of the G.P.R. passenger service, details of which appear in an advertisement in this issue.

Everyone is going to the big local dance, under the auspices and direction of the Woman's Auxiliary of All Saints' Church, at the Odd-Fellows' Hall, on Friday, September 22.

W. Clendennin, field supervisor S.S.B., after a holiday of a couple weeks, has returned to Vulcan and has renewed his duties in connection with the soldier settlers of the land.

Mr. and Mrs. Wm. Bone, of Calgary, the former a brother of Mrs. Jacques, were Saturday visitors with Mr. and Mrs. Harry Jacques. They were on an auto trip to Spokane, and left here on Sunday morning.

"Red" Seivers telephones us from Kirkcaldy that they have made up a nine down there that challenges the Vulcan bull team for a game at Vulcan. We pass this on to the players here and anticipate a great game.

"Dooley" Ober, one of our wireless experts, is achieving interesting success in transmitting, his messages having been picked up at Vancouver and at points in Saskatchewan and elsewhere. He is erecting higher poles, increasing his aerial and otherwise improving his apparatus.

J. A. McArthur, of Wyoming, was the welcome guest last week of G. D. McArthur, of Vulcan. The men are brothers and this was their first meeting in thirty-eight years, and needless to say it was an interesting event. J. A. is a mining prospector and has had extensive experience in the fields of the United States.

Two more special prizes have just been added to the list for the Vulcan District School Fair. For plain cake, by pupil 12 years and over, cake to be made with Magic baking powder; first, 2½-lb. tin Magic baking powder; second, 12-oz. tin Magic baking powder; prizes donated by G. W. Gillett Co., Limited, Toronto.

P. J. Roach, of Red Deer, has accepted a position with G. McQueen, Vulcan, and is in charge of the shoeing department of his blacksmith business, and the public is assured that Mac is desirous of giving the best possible service, and was fortunate in securing a mechanic with the experience and ability that is possessed by Mr. Roach.

Dr. Carson is the coroner for the district, and on Friday last was called to a case near Lomond. Hoken Olsen Andersen, aged 63 years, was the principal in the case. The old man had left home to go threshing, but he was later found dead in an unused stable. He had tied one end of a rope to a rafter in the stable and the other about his neck, and when discovered was in a sitting posture and had been dead for almost a week. Trouble and despondency are responsible for the deed.

At the police court on Tuesday, before J. A. Lindsay, J.P., the case against Leo Douglass, charged with assault upon one of the proprietors of the Canada Cafe, in the cafe on Sunday night, was heard. The accused admitted in court having been under the influence of liquor and the result was he was refused to pay the amount owing and threatened the complainant with violence, chasing him around his counter several times. The complainant used a water pitcher to protect himself and the accused appeared in court with a badly damaged head. The police want to help make this town a model one, and Douglass was arrested, spent the night in the case, and at court was fined \$10 and costs or thirty days imprisonment with hard labor. The fine was paid. The action of the police is to be commended, for at this time of the year there are a number of floaters who must be shown that the police intend to do their duty.

Where and when and how to plant trees, a subject that is becoming more and more interesting on the prairies—and particularly at Vulcan—was discussed in a manner easily understood by Messrs. Mitchell and Cooch, at the meetings held yesterday at the "Tree Planting Car." And there were many to hear and to understand, for the school pupils attended in the afternoon and the adults at night. The talks on trees were interesting and profitable, and the efforts of the lecturers and the association by which they are employed are not lost in Vulcan, which has been designated by Mr. Mitchell, as "our pet town," the distinction coming to us because of the fact that the fine success of our tree planting campaign is a joy and a delight to these men whose business it is to talk trees. There was also pleasure and entertainment in connection with the meetings, for what is better than a series of scenic moving pictures and many colored slides that picture the beauty and benefit of trees and flowers and shrubs?

THE VULCAN ADVOCATE
VULCAN, ALBERTA

EDITORIAL PARAGRAPHS

Roger W. Babson, the financial expert, has this to say in a recent financial letter: "I am convinced it will be the labor situation which will bring an end to our present prosperity and throw the nation ultimately into chaos. The solving of the labor situation is wholly a question of religion. The wage-worker will never be satisfied with higher wages and shorter hours, any more than you and I are satisfied with bigger profits and a bigger house. Things never did satisfy anyone and never will. Satisfaction and contentment are matters of religion. Communities and industries, where right motives are paramount, have no serious labor problems. When both employer and wage-earner honestly believe that we are in this world to serve others, the labor problem will be solved—but not till then. We employers should learn to give up, and labor should wake up. However, neither of us will do it except as we are actuated by religious motives. Both groups are largely actuated by selfish motives at the present time."

The soundness of Alberta from an agriculture standpoint was proven to the members of the British parliamentary party and members of the Montreal Board of Trade who toured Alberta last week. When they visited the C.P.R.'s demonstration farm at Strathmore and were shown through the various departments including the dairy, poultry and animal branches. A large field of sunflowers were being cut at the time and packed in large silos at the dairy barns. The information was given to the visitors that this year alone the dairying industry in Alberta would produce \$40,000,000 of products. The citizens of Strathmore appreciate the location of the C.P.R. farm at Strathmore and they assisted in entertaining the visitors for the two-hour stop over which was immensely enjoyed by the tourists.

"Whig" says one examiner employed in Toronto marking students departmental examination papers, marked nine the first morning and received orders to mark only one in the afternoon. It would have been possible to mark ten papers in two hours but they were not allowed to do it. At this rate it cost \$1.20 to mark a student's paper in one subject. No wonder the examination fees keep going up from year to year. Even at the present fee there must be a big loss each year. This must be paid out of the provincial revenue. It looks as though the Ontario Department of Education was becoming all tangled up in red tape, says "Whig."

Merchants and supporters of the Mackenzie King government in British Columbia are agitated over the letting of contracts for the making of uniforms for the quarantine staff at Victoria and other federal branches to "Charlie Kept," Chinese tailor. Bids were called or, it is stated, and the Oriental was the lowest. Liberals make some allowance for the mistake suggesting that the government was misled by the name Kent and did not connect it with anyone of Oriental extraction. Protests have been sent to Ottawa and Attorney-General Manson remarked that he would inform Ottawa of the inadvisability of its action.

The Lethbridge school board will not permit jazz music on dancing at the high school. They expect to be termed "old and out of date," and "flat tires" and "mean things," etc., but they have taken a positive stand on the subject. Personally we think they are right.

The Bassano Mail editor suggests entering coal prices in hurdle contests for they are always ready to jump.

PRESS COMMENTS

Calgary Herald: Dr. G. D. Stanley, of Calgary, has been talking at an Edmonton convention in favor of provincial control of all hospitals with imposition of a health tax to take care of part of the operating expense. Doctor Stanley would have the government build hospitals in outlying districts to meet the needs of all those who are now too far away to be attended to in hospitals already in existence. In the matter of hospital organization Dr. Stanley must be regarded as an idealist. No one will quarrel with his ideas, but at the moment it will be agreed by practical men and women that he is talking away ahead of his time and age. There is no province in the Dominion that The Herald knows of that indulges in provincial hospital organization and so far as Alberta is concerned the idea, while delightful to contemplate as a possibility of the future, is simply impossible now. Ratepayers of Calgary are well aware just what municipal hospital control means in the way of expenditure for this city. It is one of the heaviest levies appearing in the annual tax roll. There is no particular objection to it because we are pretty well accustomed to the idea. But were the idea to be extended to the province and the citizens called upon to pay their share of the provincial hospital levy on a system where every person in the province was to be given hospital attention as needed, there would be immediate and justifiable objection. It is altogether too expensive a suggestion considering the cramped financial situation of the provincial authorities. Some day it is possible that there will be reasonable demand for some such system. It is something to look forward to. We may thank Dr. Stanley for giving us the idea, which we shall hold in our heads until such time as the province has a treasury much more stable than it is at this time. Meanwhile we shall try to get along as the people of other provinces have been getting along since time began. They have not done so badly and there is no reason to believe that we shall do any worse.

Westminster Gazette: If the world's crop is increasing, so, too, is the world's demand. Japan and China are among the wheat-consuming nations, and one of the permanent problems is not merely to get a granary like Russia going again, or to secure good harvests, but to increase the wheat fields of the world. Settlers in the virgin lands and scientific substitutes for nitrates are two practical sides of the question. A third, and the more immediate one, is to get the nations free from their present political troubles, settled down to work, and exchanging the products of their toil, whether in agriculture or industrial pursuits.

La Presse, Montreal: "The Draconian rigors of the United States tariff, adopted or in preparation, have convinced the least suspicious minds of the urgent necessity there is for this country to reduce as much as possible the extent of our purchases from the other side of the border line, especially now that new barriers have been erected to block the entry of Canadian products."

Kincardine Review: In a speech delivered on the seventeenth storey of the King Edward hotel, Toronto, Hon. Mackenzie King gave some good advice to Canadians. Referring to the coal situation he advised them to beware of centralization. He preached the doctrine of individual action, then municipal, then provincial. The last to look to is the federal government. He is right—never more so than now that he is in power. Anyone who expects action from him is laying the foundation for a fine superstructure of disappointment. He never did anything in his life but make speeches, and, if his speeches cannot save, the country is doomed. He said that war was always hard on Liberalism. That also is true of the Liberalism he preaches. During war something practical has to be done. The enemy cannot be defeated by fine phrases about the principles and historic traditions of Liberalism. It is only in the piping times of peace that that sort of dope is effective.

Northwest Review: Some months ago I expressed the opinion that it might be a good thing if people were forbidden to go to church. George Bernard Shaw has now come out with the view that it would be a good thing to close up all the churches which is about the same idea. His reason for the suggestion is that people would then feel the need of churches so intensely that they would demand their re-opening: which was also my own notion, based upon an exhaustive study of human cussedness. The moral of this paragraph is that George Bernard Shaw has not a monopoly of all the original thinking which is discernible in current literature.

New York Sun: Thus all the fears excited by the treaty in Great Britain and France, all the hopes aroused in Germany and Russia, have proved groundless. The vast Russian Empire must remain in isolation because its rulers have so little in common with the rest of the world that peaceful intercourse is almost impossible. Until Lenin and Trotsky and Krassin come to the realization that practice has proved their theories wrong, until they accept in full the modern economic system, they will find themselves so out of step with other nations that the best of wills cannot bring about an agreement.

Kind Words: A dear old lady in Vermont was much concerned by the contents of a letter she had received from her sister in Boston. "Listen to this, Henry," she said to her husband, as she approached to read from the letter, "I call it nothing short of cruelty." "Why, what's the matter?" asked Henry. "In this letter," resumed the old lady, "Abigail tells me she gets help in raising her children from a mother's eliab. I do believe in a slipper sometimes, an' a good birchen don't do a child any harm, but I never in all my life used a club on any of my offspring."

SPEAKING SOUND FACTS

R. J. C. Stead of the Dominion immigration department was speaking sound facts when he said that Canada must consider its immigrants in the light of future sons and daughters-in-law. Immigration will determine what the character of the Canadian people is to be in the next 50 years remarks the editor of The Albertan. A nation cannot take a new element into its fabric without both undergoing some change.

E. G. Gardner of Coronation district has half a dozen three months old pigs that weigh 115 lbs. each. He fed them along scientific lines.

The Columbia Grafonola

The Columbia Grafonola is the Phonograph PLUS. It has all the advantageous features of every other sound-producing instrument PLUS many EXCLUSIVE advantages which place it in a class by itself—beyond the bounds of competition. Before purchasing come in and let me demonstrate the above assertions.

(Kincardine Review)

Not much coal, perhaps, but then lots of people have advice to burn.

We knew a man once whose car stalled and who didn't say it was the first time it acted that way.

If winter comes and coal does not, Ireland will have nothing on Canada. We too, will be in a freeze state.

The Indian who stole an alarm clock will find it handy when he is doing time.

It is reported the ex-Kaiser is going to marry again. Here's hoping he may get the right sort of wife.

Too bad that Rt. Hon. Arthur Meighen was not still in power. Western Grain Growers would then know.

This week sees a marked improvement in the unemployment situation. Thousands of teachers and pupils are back at work.

The Dominion Government sent troops to Nova Scotia to settle strike riots. The premier hastens to express his disapproval of the presence of soldiers there. The thing he would not that he does.

The unconscious wit of a child will often leap to the heart of things. Witness the schoolboy who, after being taken to the House of Commons, wrote a description of his visit, in which occurred this sentence: "The Speaker entered the house attended by his chaplain, who, having glanced round at the members present, at once offered up a prayer for the safety of the nation."

MOTHER TO BLAME

The mother of a young woman who recently was granted a decree of divorce, probably explained why her daughter's married life failed, when she said: "I tried all my life to get her a good husband. I slaved night and day to keep her well dressed. I never let her do a stroke of hard work in her life. She never knew the inside of the kitchen. She never had to make a bed or wash a dish. I wanted her to be a lady."

Practical application of a process for extracting oil from the tar sand deposits at Fort McMurray, has now been made with a plant installed by a company operating in that vicinity. The tar bed being operated is 150 feet thick.

GENERAL NEWS

There is a three million foot flow of gas from the Barnwell gas well which may be utilized by the Canada Western Company.

A local doctor extracted a rather large beetle from the ear of a Cowley farmer on Monday morning last. The creature was evidently looking for winter lodgings.

Although the Alberta wheat crop will be much larger than was anticipated sometime ago, officials of the C.P.R. state they have ample cars available to handle the crop.

Manitoba and Alberta butter won the first and second places at the National exhibition in Toronto, proof that the west can produce dairy products as well as No. 1 hard.

Greece now owes Canada more than seven and a half million dollars and it is feared that owing to the defeat of the Greeks at the hands of the Turks it has put that country in bad shape financially.

It will be seen that the names of the five men arrested recently for being implicated in the wrecking of a train in Illinois, not one of them is an Anglo-Saxon. In Canada also the same applies in cases of vicious crimes.

The government offers Dominion bonds in exchange for Victory bonds. Those who wish to invest in guaranteed gilt-edged securities cannot do better than accept the government's offer and exchange their Victory bonds for the new issue.

W. H. McLaws and Eugene Coste of Calgary who obtained extensive rights in the Viking district sold their interests to a New York firm for \$150,000. It is in such cases as the above that a suitable tax should be applied. These men got the rights for a song from the crown and a 50 per cent tax would be only reasonable.

A very important financial conference was held in New York last week of the American Bankers' Association. Over 7,000 men representing 22,000 member banks were present and they discussed many financial problems with which Canadian are interested, owing to close business relations which exist between the two countries.

Parties of prominent people visiting Alberta during September include the members of the Montreal Board of Trade, members of the British Empire Exposition Commission, who were in Calgary on September 8, and will be in Edmonton later, also passenger agents of railways in Canada and the U.S. who are meeting in Calgary and Banff in convention, numbering between 300 and 400.

Kingston penitentiary had a new wing added two years ago and cells in the old building for one inmate were divided to hold two. Yet so overcrowded did it become that the government was obliged to ship a trainload to the Saskatchewan penitentiary. A prison on wheels, consisting of five cars containing 76 prisoners, their guards, cooks, etc., passed over the Canadian National Railway, the car doors and windows barred as a prison. In five years the number of convicts has more than doubled. Now how do you account for that?

GENERAL NEWS

The Camrose Canadian says one farmer in that district sold \$590 worth of wool this year.

The Red Deer Advocate says that some farmers in that district are adding to their herds, as they believe that beef will come back again some of these days.

The Prairie Grain Elevator at Wetaskiwin will be closed this season owing to the small crop. This is the first year that district has suffered from drought.

Asphaltum tar has been shipped from McMurray district to Edmonton and a test made of same in road-making. It is proving very satisfactory in that respect.

Coal operators have announced that the price of anthracite coal should not rise. It is to be hoped that this message reaches the intermediaries between the citizens and the operators.

Two teachers from London, Eng., have taken their places on the staff of the Lethbridge schools, in place of two Lethbridge teachers who have gone to England under the teacher exchange plan.

While drilling for water near Vauxhall a flow of gas was struck at a depth of 840 feet. There is a pressure of 300 feet per square inch which will supply the vicinity with gas for domestic purposes.

Andrew Dollar, the High River horseman shipped some of his valuable pure bred show horses through from here to the coast where he will exhibit them at the coming exhibition at New Westminster.

It is curious, but true, that in civic administration the man who converts a wilderness into a garden suffers an increase of taxation for his pains, but when he converts a garden into a wilderness, his taxes are lowered.

Sam Beddinger of Ponoka district while drilling for water struck a good flow of gas at 150 feet. He continued drilling and was lucky in striking water at a depth of 315 feet, thus he has both gas and water from the same hole, the gas being used for heating and lighting and water for drinking purposes.

The Foremost bank robbery is still a mystery and the perpetrators cannot be located. Another bank in Montana was looted of about \$3,000 cash and \$2,500 in bonds, a few days after the Foremost affair, under similar circumstances and it would appear the same men were on the Montana job.

The departmental examination markers are well paid—\$12 per day; in fact, very well paid, and are allowed to mark only ten papers a day, remarks the editor of the Petrolia Topic who was a teacher himself in the early days. That beats the union bricklayers. We remember when we spent five or six summers' holidays (one part of the teaching term) at that sort of work. We were paid from \$4 to \$6 a day, according to the money available, and the time we spent at it. We would mark as many papers as we could, say from 30 to 50 and we sometimes worked seven, eight or nine hours if our section got behind.

SOLD AT AUCTION

The first sale of stray animals under a Dominion order-in-council passed in January, making the Blackfoot Indian reserve into a pound area, took place September 9 at Gleichen. Twelve head of cattle were sold by auction, the total amount realized being \$245.50. Christ Bartsch, of Gleichen, purchased most of these cattle, buying 10 head at an average of \$20.65 each. On September 21 the first sale of stray horses under this order-in-council will be held at the south camp of the reserve. There are 60 head of horses to be disposed of at a later date.

James Robinson who has been manager of the Saskatchewan Co-operative Elevator Co. has been selected as a member of the Board of Grain Commissioners.

THE VULCAN ADVOCATE

Trade-at-Home Campaign

Fortunes Made Without Effort

There is one way to make money by dealing with the mail order houses but it isn't by buying goods from them.

The man who thinks he is making money by buying his goods from mail order houses has only to read of the amazing profits made by some of these big corporations to realize that all the money is being made by the man on the other end of the deal.

The stockholder in a big mail order concern toils not and neither does he spin, but he piles up his money so fast that it makes the ordinary man's head swim to read about it. Here is the experience of the stockholder in one of the large mail order concerns, as told by a reliable financial journal. It gives a glimpse into the inside workings of the mail order business that should be of interest to those who have made such things possible.

HOW THE GAME WORKS

In 1908, this man bought 600 shares of stock in the mail order corporation in question when the stock was selling around \$40 a share, the 600 shares costing him a little less than \$25,000. In 1911 the company declared a stock dividend of 33 1-3 per cent. In other words the company after paying cash dividends regularly, had accumulated a surplus profit of one-third of the amount of capital invested in the business; but instead of distributing this profit among the stockholders the company kept the money in the business and issued stock for that amount to the stockholders. By this action 200 more shares of stock were issued to the man who had originally bought 600, increasing his holdings to 800 shares, without his having put any more money into the business.

Another stock dividend of 50 per cent. was declared in 1915 and this added 400 shares more to his holdings, giving him 1,200 shares in all. A third stock dividend of 25 per cent. was paid early in 1917, bringing the man's stock holdings up to 1,500 shares, still without his having paid in any more money. On this 1,500 shares of stock, cash dividends of \$8 a share are now being paid. This investor therefore is now receiving \$12,000 a year from his original investment of about \$25,000, and as the stock is now worth around \$160 a share, the present market value of his stock is \$240,000, giving him a profit of \$15,000, in addition to cash dividends which he received during nine years, amounting to many more thousands of dollars.

ONLY ONE OF HUNDREDS

This is the story of just one small stockholder in one mail order concern. A profit of more than \$215,000 made by one small stockholder in nine years on an investment of less than \$25,000! It reads like fiction but it is financial history. There are hundreds of other stockholders in this and other mail order corporations, some of whom have made millions while this man made thousands. Add the profits of all these stockholders together and the result is a sum that staggers the imagination.

Small wonder that the men who own the stock of the big mail order houses can live in palaces, ride in the highest-priced automobiles, own palatial private yachts and buy \$100,000 paintings. But who has furnished the money to pay for the palaces and the automobiles and the yachts and the \$100,000 paintings? The people in the country and the small towns who have kept an endless stream of money flowing into the coffers of the mail order houses have made all this possible. Their millions of dollars have gone to the big cities to build up these great concerns. Their millions of dollars have provided the automobiles and yachts and other luxuries for the stockholders in these corporations.

PRESENT FROM MAIL ORDER BUYERS

These men who have piled up such big fortunes in the mail order business have not even had to pay for much of the stock from which they are now drawing princely dividends. The people in the country and the small towns, generous souls, have bought it for them. This is shown in the case of the stockholder just mentioned, who originally invested. The generous mail order buyers have made him a present of \$215,000 worth of stock and he has not had to turn his hand over to get it. He has never even had to so much as write a letter to get it. The generous mail order buyers have handed it to him on a golden platter.

There's money in the mail order business without a doubt, but it's on the side of the man who does the selling and not the one who does the buying. If you must do business with the mail order house, buy some of its stock and let the fellow in the next town buy your automobiles and private yachts while he struggles with the hard times that come from draining his town of the cash that goes to keep you in luxury.

To Holders of Five Year 5½ per cent Canada's Victory Bonds

Issued in 1917 and Maturing 1st December, 1922.

CONVERSION PROPOSALS

THE MINISTER OF FINANCE offers to holders of these bonds who desire to continue their investment in Dominion of Canada securities the privilege of exchanging the maturing bonds for new bonds bearing 5½ per cent interest, payable half yearly, of either of the following classes:—

- Five year bonds, dated 1st November, 1922, to mature 1st November, 1927.
- Ten year bonds, dated 1st November, 1922, to mature 1st November, 1932.

While the maturing bonds will carry interest to 1st December, 1922, the new bonds will commence to earn interest from 1st November, 1922, GIVING A BONUS OF A FULL MONTH'S INTEREST TO THOSE AVAILING THEMSELVES OF THE CONVERSION PRIVILEGE.

This offer is made to holders of the maturing bonds and is not open to other investors. The bonds to be issued under this proposal will be substantially of the same character as those which are maturing, except that the exemption from taxation does not apply to the new issue.

Holders of the maturing bonds who wish to avail themselves of this conversion privilege should take their bonds AS EARLY AS POSSIBLE, BUT NOT LATER THAN SEPTEMBER 30th, to a Branch of any Chartered Bank in Canada and receive in exchange an official receipt for the bonds surrendered, containing an undertaking to deliver the corresponding bonds of the new issue.

Holders of maturing fully registered bonds, interest payable by cheque from Ottawa, will receive their December 1 interest cheque as usual. Holders of coupon bonds will detach and retain the last unexpired coupon before surrendering the bond itself for conversion purposes.

The surrendered bonds will be forwarded by banks to the Minister of Finance at Ottawa, where they will be exchanged for bonds of the new issue, in fully registered, or coupon registered or coupon bearer form carrying interest payable 1st May and 1st November of each year of the duration of the loan, the first interest payment accruing and payable 1st May, 1923. Bonds of the new issue will be sent to the banks for delivery immediately after the receipt of the surrendered bonds.

The bonds of the maturing issue which are not converted under this proposal will be paid off in cash on the 1st December, 1922.

W. S. FIELDING,
Minister of Finance.

Dated at Ottawa, 8th August, 1922.

KIRKCALDY NEWS

Threshing is quite well under way. The crop average in this district is about fifteen bushels.

The Junior U.F.A. will meet this week on Saturday afternoon at 2 o'clock at the church. Plans for Halloween will be discussed so it is hoped all the boys and girls will be present.

The regular church service will be held in the church at 4.30 p.m. (instead of at 7.30) the next two Sundays, September 17 and 24. Rev. R. N. Brunton will preach next Sunday and Mr. Stowe will have the last service of the year on the 24th. All are invited to these last services.

The Women's Institute meets Thursday, the 14th, at Mrs. Boose's. Mrs. Hagerman will speak on "Women of Other Countries."

The municipality is installing some scales in front of the store this week.

RED CROSS NEWS

Miss Flossie Vance of Calgary has been visiting for some time with Mrs. A. Clayton, Mrs. Richardson, and Mrs. D. L. Doane.

Mrs. Speer who has been taking care of her mother through her illness in Calgary, returned to this district last week.

Mrs. J. W. MacRae recently had the unexpected pleasure of a visit from her father, Mr. Barrie from Chatham, Ont. Mr. Barrie expressed himself as very much pleased with the prairie. He went west to the coast where he will visit other relatives.

Miss Dale Graham returned the 2nd inst. from the north where she spent several weeks with her aunt, Mrs. Clifford Wheeler.

Highland school opened September 5th with Miss A. Hilly from Middleton, N.S. "At the Wheel." Someone wanted to know if "they" manufactured school teachers in Nova Scotia. They do, and good ones too.

Mrs. M. Dunham returned from Craigville last week where she has been visiting her daughter, Mrs. Cavanaugh.

Another "most enjoyable" meeting of the Redlandview W.I. was held at the home of Mrs. Wm. Hay on Wednesday last week. Among the items of business was an appeal for help from the people near Medicine Hat. It is not hard to find people worse off than you are, and here is a chance to help and it won't cost you a penny. Just bring the worn clothing or shoes which have become too small; to the Institute meetings where they will be taken care of by Mrs. Ed Lane and sent to the proper authorities for distribution. After business Mrs. Hay, Sr., gave a most interesting demonstration of "old country" fancy work, showing some beautiful pieces of work and curtains. It looks easy but when you try it you find it not so easy. However we venture to predict Mrs. Stager will have curtains made and worked as Mrs. Hay does it.

There were some distinguished visitors at the Institute meeting. Mrs. Lars Hanson and her two daughters, Mrs. Anderson from Bellingham, Wash., and Mrs. J. Hill of Carmangay and small son. Also Mrs. Finley, a charming lady from Boston, who is visiting her niece, Mrs. Jack Smith. Mrs. Finley is a native of "The Island" but has spent most of her life in Boston. She has been visiting relatives in different parts of the continent for several months, being as far as San Diego, California and even down into Mexico (where she nearly saw a bull-fight). Mrs. Finley is fascinated with Alberta, says she never saw such moonlight anywhere.

Mrs. Charlie Hay and young son "William Archie" were also present at the meeting.

It is worthy of note (so the other members say) that the writer was the first to arrive also the first to leave the Institute meeting. "Wonders will never cease!"

Once more an invitation has been sent to the Vulcan Institute to visit Redlandview September 20. Roads, weather and other incidentals permitting the meeting will be held at the home of Mrs. Ben Graham. Mrs. MacRae and Mrs. Peterson entertaining, each member helping as agreed. Do not forget to bring something for roll-call from Canadian writers if possible.

Late letters from our good friend, Mrs. J. D. Murdoch in Calgary, reports all the family in good health and spirits. Miss Alice is taking grade VIII this year. Master Jack is attending high school. Mr. Joseph Rushfeldt is boarding at the Murdoch's and attending normal school.

Cutting and stooking is about complete in this district; threshing is the order of the day. There must be about fifteen outfits within a radius of five miles from Red Cross school. This reads like a joke, but it was meant for a fact, if we are wrong, we would like to be corrected. Threshing will be a short job if the weather holds.

Rain Sunday evening will cause delay.

Mr. Wm. Fletcher's ("Dad") big steam machine went through a week ago to his section two or three miles east. Saturday evening they steamed past on the return trip to his home south of Brant, the big outfit with its white cook car and bunk car made an imposing train.

Miss Loraine Woodman came home from Blackie Sunday evening. We are all glad to have her home again.

Master Gordon Clayton is in Vulcan attending high school.

REAL MEN

BRANT NEWS

No man is as good as he might be. Mr. and Mrs. Shultz spent the week-end in Calgary.

Mrs. Wm. Thomas was a Calgary visitor Saturday.

Mr. George Obery was a Brant visitor Saturday.

Mrs. Nell McColman was a week-end visitor in Calgary.

Mrs. Ben Holden spent Sunday with her children in Calgary.

Mr. and Mrs. Dan Harper and son Ernest spent Sunday with relatives near Champion.

Vacations would be rather nice if we had sense enough to stay at home and enjoy them.

Miss Velma McColman has been assisting Mrs. Thos. Johns with her housework the past week.

Nothing is more precious than time, and those who mispend it are the greatest of all prodigals.

Mr. Jack Bowman, an old timer of the Brant vicinity, now of Oregon, is visiting friends in the Brant district.

The dance at Vulcan on Friday, September 22, is an event that is interesting our people, and many will likely go down.

Mr. George Green took advantage of the threshing machine being stopped, on account of the rain by having his men busy hauling coal.

Master Eddie Lenard who has been visiting at the Ben Holden home for the past week, returned Saturday evening to his home in Calgary.

Mr. Erickson and family are moving into the Alberta Pacific elevator house formerly occupied by Mr. Ben Holden. Mr. Erickson is assisting Mr. Risvold in the elevator.

Today, Monday, operations in threshing have been interrupted by rain. No doubt to some the rain will be most welcome, while to others it will mean the stoppage of work for a day or two, especially to those who are threshing grain.

A little excitement was caused last Saturday morning when a four-horse team belonging to Mr. Oscar Johnson were frightened by the incoming passenger train and ran away. The team ran about a mile when they were stopped by Charley Braunworth, no damage was done to driver or horses.

One of Brant's citizens was experimenting Sunday last with his Ford to see if it could be possible to run it without the use of gasoline. Now if that proves a success it will sure be a boom to Ford owners, as we don't believe any other make of car could be run without gasoline. We will not mention the inventor's name as we don't think he would like it to be known unless his invention proves a success.

SAVING IN MONEY

The secretary of the Bassano school board is communicating with various school boards in the Bassano Inspectorate with the endeavor to arrange for a convention of trustees to be held at Bassano in the near future. The plan is to send a compact committee from the Bassano Inspectorate to the provincial convention thus eliminating expenses of about \$4,000 to the various school boards and at the same time making the convention a less unwieldy body when they meet at Calgary. The plan is an excellent one and other inspectorates should follow the example and only send trustees who know what they are talking about when they address the convention.

The daily production of 6,825 tons of coal at the Drumheller coal mines has been increased the past week to a daily output of 9,000 tons per day. All coal camps are now in operation and it is expected that the supply will be sufficient to meet the demands.

The acreage of the west under crop this year has increased almost 60 percent. This is one of the most important features of the 1922 crop report. While prices may fluctuate and yield per acre change, increased acreage represents a clear gain.

GENERAL CHANGE
IN
TRAIN SERVICE

Effective Sunday, September 17 1922

Times for Trains at Vulcan will be—

NORTHBOUND
No. 543, Daily, Lv. 5:35 a. m.

No. 587, Daily ex Sun., Lv. 6:34 p. m.

SOUTHBOUND
No. 538, Daily ex Sun., Lv. 11:00 a. m.

No. 544, Daily, Lv. 11:46 p. m.

Trans-Canada Limited, Nos. 7 and 8, between Montreal, Toronto and Vancouver will be withdrawn. Last train leaves each of these points on September 10th, 1922.

Soo-Pacific Express, Trains Nos. 13 and 14, between St. Paul and Vancouver will be withdrawn West of Moose Jaw. Last through trains from St. Paul and Vancouver September 16th, 1922.

For further particulars apply to any Ticket Agent.

J. E. PROCTOR,
District Passenger Agent,
Calgary.

MAIL CONTRACT

Sealed Tenders, addressed to the Postmaster General, will be received at Ottawa until noon, on Friday, 6th October, 1922, for the conveyance of His Majesty's Mails, on a proposed Contract for four years, twice per week on the Vulcan Rural Route No. 2, via Hearnleigh and Arrowwood, from the 1st January next.

Printed notices containing further information as to conditions of proposed Contract may be seen and blank forms of Tender may be obtained at the Post Office of Vulcan, Hearnleigh and Arrowwood and at the office of the Post Office Inspector.

Post Office Inspector's Office, Calgary, 25th August, 1922.

D. A. BRUCE,
Post Office Inspector.

NOTICE

This is to give notice that after this date the undersigned will not be responsible for any debts contracted by my wife, Edith Haggerty.

W. C. HAGGERTY.

September 11, 1922

POLICE MAGISTRATES

Police magistrates throughout Alberta, with the exception of those in the cities, will now work under a new remuneration plan. An order-in-council has been passed, effective from the first of September, in accordance with which the magistrates will no longer be paid stated salaries but will be given allowances for each day occupied in actual magisterial work. The new scale provides for a payment of \$5.00 or each half day or fraction thereof thus spent in holding court.

It is expected that an appointment will be made of a magistrate in the town of High River and it cannot come too soon for the situation demands such an appointment, particularly at this season of the year when court demands are very numerous.

Bert Innes, Tel. 42, Vulcan, Alberta.

Between thirty and forty thousand dollars are spent daily by United States tourists in Montreal, or approximately six million dollars for the six months period from May to October, according to the Secretary of the Automobile Club of Canada. For the province, he further states, the sum would be about \$15,000,000, as Quebec and other points attract large crowds. In the principal hotels of Montreal it is estimated 75% of the guests this summer are from the United States.

Willing to abide by the school laws, ten thousand young American Mennonites from Northern States want to come here this fall to take up land which the old colony Mennonites will vacate, according to H. H. Ewart, former inspector of Mennonite schools, Gretna, Man., who has laid before Premier Bracken plans for bringing them here if a loan of \$3,000,000 could be obtained. The young colonists would be brought from Kansas, Minnesota, North Dakota, and Nebraska.
